

The United States is one of the largest crude oil producers

About 100 countries produce crude oil. The United States was the top crude oil producer in 2018 and 2019. U.S. oil refineries obtain crude oil produced in the United States and in other countries. Different types of companies supply crude oil to the world market.

Where U.S. crude oil is produced

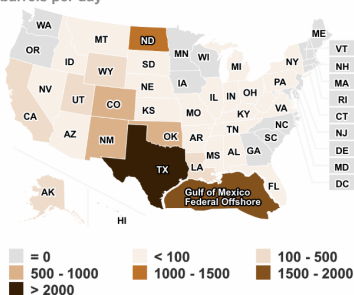

Crude oil is produced in 32 U.S. states and in U.S. coastal waters. In 2019, about 69% of total U.S. crude oil production came from five states.

The top five crude oil-producing states and their percentage shares of total U.S. crude oil production in 2019 were

U.S. crude oil production by state in 2019

1,000 barrels per day

Note: Crude oil includes lease condensate.
